

“Death in a Bottle” Silver Shield SOL

We just returned from a seminar taught by Dr. Gordon Pederson (author of the book “A Fighting Chance”) and it has left me so excited about **Silver Shield SOL**.

SOL means suspended in water, which makes the silver non-toxic, unlike the colloidal silver that many other companies carry. NSP has a patent on this formula and it’s approved by the FDA, which is unheard of for a natural supplement. So, how exciting is that?

I learned most of my health problems are stemming from my teeth. I’ve had abscesses and problems with my teeth all my life and didn’t realize the infection was getting into my blood stream, even though I knew something was making my blood full of infection.

More importantly I learned, I can hold liquid **Silver Shield SOL** in my mouth, thus killing all infection, bacteria and viruses. (Death to bacteria, infection and viruses).

I also learned it reduces inflammation, and I’ve had a BIG problem with inflammation in my joints (arthritis) for many years as well. Needless to say, I feel God has put me on a path towards better health.

I learned I can put the liquid in my ears for ear infections.

I learned it stimulates Stem Cell Activity.

It heals up bladder and kidney infections. (Death in this bottle to Bladder/kidney infections).

It’s great for diaper rash and wonderful for children for any kind of infection, virus, mold, fungus, thrush, all with applying the **Silver Shield Gel** to the problem. They can swallow the liquid or the gel and because it doesn’t taste bad, they don’t mind taking it.

4 drops in a 8oz glass of water will purify it and kill parasites. (Death in this bottle again). It relieves mild pain in 5 min or less if rubbed on, and activates healing as well as killing all staph or bacterial infection in a wound.

I learned I can use it on my face to clear up acne or other skin problems, while giving myself a anti aging facial. It makes all skin more soft, more supple and less wrinkles. Test it yourself with the “pinch an inch” and see the skin on your hand respond in minuets. You can use the liquid in the eyes for macular degeneration, breath it in a nebulizer for asthma, apply the gel to varicose veins and hemorrhoids, spider veins and any other leg problems for immediate relief.

It takes care of inflammation.

Colon problems such as diverticulitis, crone’s, colitis, IBS? Take 2 tablespoons 2X daily and see what happens. Plus you can apply it directly to your abdomen area for pain relief.

You can add it to your wet wipes for fighting bacteria, staph, air borne flu etc. Keep it on hand for the bird flu as well.

For a vaginal cleanse, insert 50% pure water and 50% **Liquid Silver SOL** and hold as long as possible. Then apply the **Silver SOL Gel** to the tip of a tampon and insert it for 90 minuets to bath the area with the gel for healing yeast infections etc. It’s been know to clear up endometriosis as well, used this way and taken 2X daily, internally.

So, see why I’m so excited?

You can believe our family will keep the Liquid Silver Shield SOL and the Silver Gel on hand from now on! If you want to try it, contact me today.
